

The National Security Policy Speaker Series

Dr. Gary Samore

Crown Family Director
Professor of the Practice of
Politics
Crown Center for Middle East
Studies
Brandeis University

“Living with the North Korean Bomb”

In his talk, Dr. Samore will discuss the evolution of North Korea’s nuclear capabilities and strategy, focusing on the most significant technical developments since North Korea’s first nuclear test in October 2006. He will also assess the successes and failures of U.S. nonproliferation efforts toward North Korea (including President Trump’s high level engagement with Chairman Kim Jung Un) and prospects for managing the challenges of a nuclear-armed North Korea.

Registration is **REQUIRED** to obtain the ZOOM login link for the presentation.
